

I believe that the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.
Indiana's Telephone Privacy law has improved my family's time at home. Indiana's law has been so amazingly successful. My Family used to receive anywhere from 6 to 10 calls per night, 7 days a week. And now, we receive a very rare occassional call from a charity of our supporting. I had doubts, was reluctant, but decided to sign on and give it a try. IT REALLY DOES WORK AND I WOULD TESTIFY THAT THIS HAS BEEN ONE OF THE MOST EFFECTIVE LAWS WRITTEN TO DATE IN INDIANA.
It would be so very disappointing if big Government would override this excellent State law.

Thank you
